Budget gain in the mid-seven-figure range

adesso insurance solutions wins DEVK for the introduction of further in|sure products

- Sales volume: almost EUR 5 million
- Project duration: until the end of 2022
- in|sure-product family: software solutions for life insurance portfolio management, administration system for the bAV and software for data migration

Dortmund, January 8th, 2020 – The pension fund of DEVK AG has chosen the in|sure product family from adesso insurance solutions. The project for a new administration system has a total volume of EUR 5 million and runs until 2022, with the aim of streamlining processes, reducing processing times and expanding the strategic potential.

Inventory management with in|sure PSLife

DEVK had already decided in favor of in|sure as a product for the administration of private health insurance in the previous year. Now the life insurance portfolio management in|sure PSLife has also been licensed for the pension fund. A further component is in|sure CollPhir for company pension schemes. DEVK will in future manage its pension fund on this basis. "The cooperation so far has shown that with adesso insurance solutions we have found a professional software company with very high insurance expertise. The in|sure products are perfectly tailored to our needs. That is why we are pleased to be able to further expand our administration system with such a reliable partner in the coming years," says Birgit Großmann, member of the board of directors of DEVK Pensionsfonds-AG.

Cost savings, relief for employees and better service

The product in|sure PSLife supports shadow processing for all tasks. The clerk can complete all entries on a cross-system interface in the administration system in|sure CollPhir, although he uses two systems. "With the products in|sure

CollPhir and in|sure PSLife a complete solution for the pension fund has been purchased, as in|sure CollPhir takes care of the labor law and collective administration and in|sure PSLife takes care of the individual contract administration. By linking our two standard systems a harmonious interaction is made possible”, says Oliver von Ameln, managing director of adesso insurance solutions.

DEVK Pensionsfonds-AG

DEVK-Pensionsfonds-AG offers contribution-based pension plans with a minimum benefit commitment. This business segment includes in particular a part of the company pension scheme of Deutsche Bahn AG. DEVK-Pensionsfonds-AG belongs to the DEVK Group. For more than 130 years, policyholders in Germany have placed their everyday risks in the hands of DEVK Versicherungen with confidence. Today, DEVK employees look after more than 4 million customers with more than 14.7 million risks in all lines of insurance nationwide. A total of around 6,000 employees roll up their sleeves to provide fast and active help. In terms of the number of policies, DEVK is Germany's third-largest household contents insurer and fifth-largest car and liability insurer.

adesso insurance solutions GmbH

The software company adesso insurance solutions, a wholly-owned subsidiary of the listed adesso AG, develops and implements standard software for the German-speaking insurance market. On the in|sure platform the Dortmund-based company bundles release-capable standard software products and also offers software and service solutions for taking over technical business processes on behalf of customers. All in|sure products cover the core processes of an insurance company. They can be used as an entire application landscape or as individual components that can be flexibly combined with each other. The in|sure product family includes Partner administration, portfolio management as well as benefit and claims processing for all lines of business, product modeling, payment transactions and IT solutions for the commission and collection/disbursement process. In addition, adesso insurance solutions provides a system for software-supported data migration and an AI solution for converting analogue to digital data. www.adesso-insure.de
